

**VOTE YES TO PROTECT OUR HOMES  
FROM DOUBLE TAXATION!  
VOTE YES ON PROPOSITION 100**

**A YES vote stops real estate transfer taxes!**

**YES – I want to stop the double taxation of our homes before it has a chance to happen.**

By voting YES, instead of working to try to repeal a second tax, we will proactively stop the tax from being applied to the sale or transfer of our homes and property, which would damage your hard-earned equity. Governments already collect property taxes annually from you based on your property's value. They should not tax your home twice through a new tax!

**YES – I want the best protection our homes can have against the damaging effects of a real state transfer tax.**

By voting YES, you are approving a citizen's initiative that will amend the Arizona Constitution and provide the best protection we can have against a double tax on our homes.

**YES – I want to prohibit the state and local governments from enacting a real estate transfer tax.**

By voting YES, you'll be stopping this tax before it has the chance to be implemented or raised! In Arizona, there is nothing to stop state or local governments from enacting a real estate transfer tax at any time. Fortunately, a group of concerned citizens, backed by the Arizona Association of REALTORS®, is working to give the voters of Arizona the opportunity to protect their homes and property from double taxation.
